Career Summary

Motivated and adaptable Computer Science graduate seeking to leverage strong skills in Python, AI/ML, and web technologies within a forward-thinking organization. Eager to apply practical experience in full-stack projects to contribute to innovative, data-driven solutions while continuously enhancing my technical and professional capabilities.

Education Qualification

Qualification	Institution	University/Board	Year of Passing	Percentage
B. Tech (CSE)	Narayana Engineering College, Nellore.	Autonomous	2024	88
Intermediate (MPC)	Sri Chaitanya Junior College, Vedayapalem, Nellore.	Board of Intermediate Education, AP.	2020	97.5
SSC	Sri Chaitanya EM High School, Vedayapalem,Nellore.	Board of Secondary Education, AP.	2018	10 GPA

Skills

Technical skills

- **Programming languages :** C, Python(OOPs), HTML, CSS, JAVASCRIPT, Data Structures(basics)
- **Frameworks & Libraries :** LlamaIndex, Google GenAI(Gemini), Flask, Pandas, Streamlit
- **Data base :** MySQL, SQLite

Soft skills

- Strong Communication, Team Collaboration, Time Management, Adaptability, Quick Learning

Certifications

- Completed certification course in **Python Programming Language** from **Udemy**.
- Completed **Career Mentoring Program** from **InterCell**.
- Completed certification course on **Web Development (Basics)** from **Bharath Intern**.

Achievements

My first achievement is that I got a job as Assistant Branch Post Master in the Postal Department of India. In which my work is to analyze the posts which were sent from Branch Post Office and deliver them to the citizens of my assigned area.

Experience

Web developer Intern   **Oct 2023 - Nov 2023**
Bharat Intern   remote

- Collaborated on writing clean, maintainable code while following modern web development practices.
- Designed and developed a personal portfolio website using HTML, CSS, and JavaScript showcasing skills, certifications, and projects.

AI/ML Intern   **June 2025 - Present**
Ducima Analytics Pvt Ltd   Chennai, India

- Developed an AI-powered chatbot for Fruitful Yield by customizing an existing system using LlamaIndex, Google Gemini, Flask, and web-scraped e-commerce data to enable natural language queries, product discovery, and general support.
- Built a Streamlit-based automation tool to analyze Google Ads activity by processing Excel reports. Enabled detection of active ad groups, ads, and keywords using pandas, regex, and session-managed UI. Delivered campaign-level insights and summary metrics to assist digital marketers.

Projects

E-commerce AI Chatbot Development – Fruitful Yield | HTML, CSS, JS, Python, Flask, Llamaindex, Pandas, LLM, SQLite
- Built an AI-powered product discovery and support chatbot for Fruitful Yield (e-commerce platform), by transforming and scaling an existing system.
- Leveraged LlamaIndex and Google Gemini LLMs to enable natural conversation with SQL and RAG-based understanding.
- Also integrated custom scraping pipelines, query classifiers, and real-time session handling via Flask backend.

Google Ads Activity Checker (Automation Tool) | Python, Streamlit, Pandas, Regular Expressions, Openpyxl
- Developed an automation tool using Streamlit and Pandas to analyze Google Ads performance from multiple Excel reports (accounts, ad groups, keywords).
- Enabled detection of active/inactive ad groups, ads, and keywords with account-wise filtering and campaign-level metrics using regex and session-managed UI.
- Delivered summary insights including total records, active counts, and processing time, improving marketing visibility and operational efficiency.

Personal Portfolio Website | HTML , CSS, JavaScript
- Designed and developed a fully responsive personal portfolio website to showcase technical skills, certifications, and project experience. Implemented clean UI design using modern frontend technologies and deployed it using Netlify for public access.
- The portfolio highlights proficiency in web development and a strong passion for the IT and AI/ML domain.
